

THE MOBILE SECURITY BOX

- Rapidly deployed 19.5-foot mast
- Four highly visible sides for custom branding
- Small footprint (3,28x3,28ft)
- Heavy-gauge galvanized steel construction

About TelescopicMast

Over the past six years, TelescopicMast has established itself as a trusted partner for over 150 customers across more than 15 countries beyond the Netherlands. The fastest-growing companies in the CCTV surveillance and Rapid deployment solutions market have selected TelescopicMast as their 'solid base'.

At TelescopicMast, our mission is to offer superior telescoping mast solutions that are both high in quality and affordable, ensuring the safety and protection of individuals, locations, and assets.

Our dedicated team of product developers possesses a deep passion for the innovation and quality of our steel CCTV towers.

Temporary, fast and secure protection!

Protect people, sites and assets.

Mobile Security Boxes are used for the protection of unmanned sites, temporary installations and supporting on-site, manned guarding.

The market for temporary and rapid deployment CCTV systems is growing fast. Savings of 60% can be made over manned guarding costs and intruders can be detected quickly. Minimizing damage, loss or delays in ongoing projects.

Typical applications include:

- Improving safety at major events, festivals, concerts & public gatherings
- Construction and industrial site security
- Roadside and traffic monitoring
- Protecting vacant properties
- Protecting infrastructure
- Reducing cable and metal theft
- Wind and solar farm security
- Crime hotspots such as car parks or isolated locations
- Preventing and minimizing fire risk
- Monitoring railroad tracks

Build your own rapid deployment cctv solution

Create your CCTV solution

Our Mobile Security Box is designed to be compatible with all major manufacturers of surveillance equipment. It is built with enough space inside to store all your electronic equipment or power, safely inside the vandal resistant box.

This will give you the flexibility to build your own solution, fit for purposes for your market and customer requirements.

The advantage of this is that you are not locked into an expensive pre-built solution. This means that you can save both time and money. In addition, you can differentiate your solution with your equipment and branding for your specific market. There are three Mobile Security Boxes in the TelescopicMast range.

Choose the Premium Mast if you require:

- Lockable roof
- Anti roof climb protection
- Heavy-duty mast
- Heavy-duty ground frame

Choose the Basic Plus Mast if you need:

- Lockable roof
- Anti roof climb protection
- Lower cost
- Lighter mast
- Lighter mast ground frame

Choose the Basic Mast if you need:

- Lower cost
- Lighter mast
- Lighter mast ground frame

Add your own devices...

Equipment

You can equip our Telescopicmast with a complete solution of your choice.

1. Choose your cameras:

Fixed, High speed PTZ dome, Thermal, ANPR

2. Choose your recording device:

Standalone DVR, VMS, NVR.

3. Choose additional equipment:

Detection devices, Audio & Public Address, Lighting.

4. Choose your power source:

Mains power, Battery backup, Fuel cells, Solar power.

5. Brand your box:

Complete your box with custom graphics on each side, promoting your own or your customer's company.

Extendable mast up to 19,7 feet

Founded in The Netherlands

TelescopicMast is the worldwide leader in building Mobile Security Boxes for temporary installations that require rapid deployment and secure protection of your electronic equipment.

We are focused on building high quality and affordable Mobile Security Boxes. TelescopicMast is committed to your success and we are continuously looking for feedback to further innovate and improve our products.

"The last five years the Mobile Security Box has been a stable platform for our cameras, even when being used at long distance. TelescopicMast has always been a reliable partner to work with."

"To reduce costs we have looked at several options that can be deployed by a single person. TelescopicMast is clearly top of the market, also from a price /quality perspective."

"We have opted for TelescopicMast because their tower is robust, secure and easy to transport. It is clearly designed for the rigors of our construction sites and we can easily brand this with our own messaging."

Easy, fast and vandal resistant

Features of the Mobile Security Box

- 1 Built-in six meters extendable mast with a 4 spoke mast top with standard mounts for CCTV cameras or floodlight.
- 2 Steel cables to the masthead which reduce camera vibration that causes false alarms.
- 3 Easy to brand with your personalized message on all four sides of 6,56 x 3,28 ft panels, making this a highly visible way to promote your company.
- 4 Fast to install by only one engineer using the manual winch, reducing installation costs.
- 5 Vandal resistant lockable steel box construction with two lockable top covers protecting your electronic equipment inside.
- 6 Four extendable stabilizers and spirit level to ensure the mast is stable, even in strong winds up to 52 miles/h.
- 7 Heavy duty forklift slots and mounting points, making it easy for transportation and on -site deployment.

Easy to transport to site

Single & Double Box trailers:

Our specially designed trailers for the TelescopicMast Mobile Security Box are available in a single and double axle version. Use our lift eyes, forklift or specially designed trailer to transport and quickly and easily install the Mobile Security Box.

- Heavy support wheel
- Shock absorbers
- Wheel chocks
- Adjustable width forks
- Tie hooks and rails
- Hot dip galvanized chassis

Load Lift Drive
