

The flexible, mobile, rapid deployable light tower.

TELESCOPICMAST

MLT4 Mobile Light Tower

The MLT4 Mobile Light Tower is a compact, tall and cost-effective lighting solution designed for temporary and mobile applications.

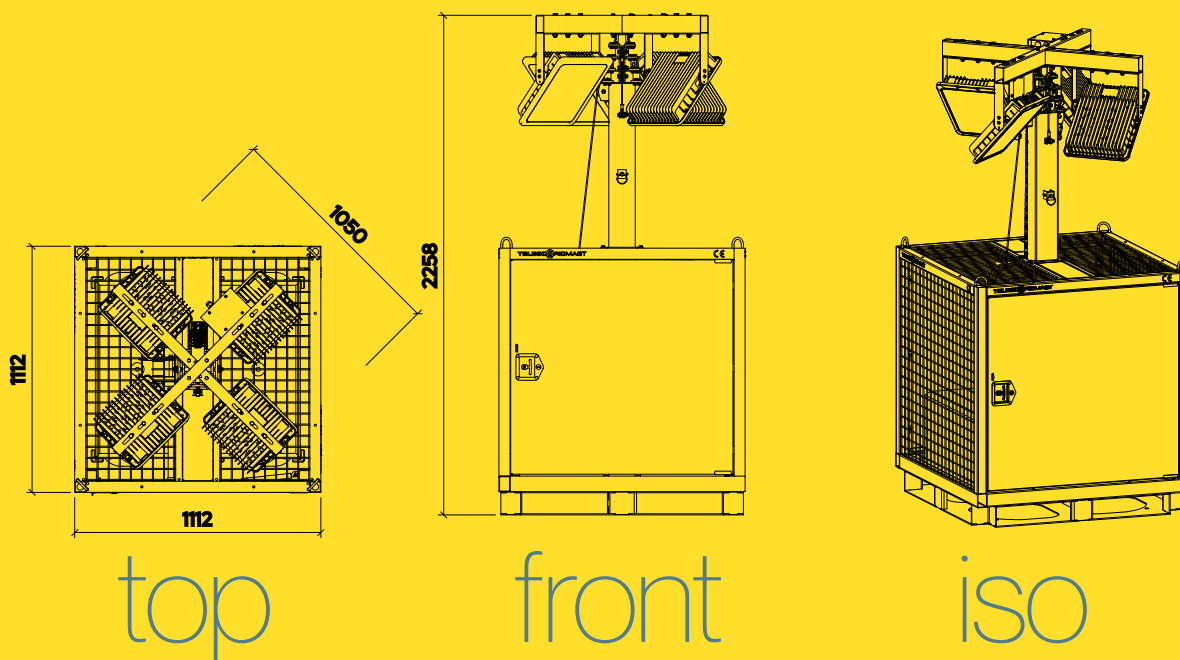

With a fixed mast height of 8.5 meters, the MLT4 provides excellent illumination coverage while remaining easy to transport, install and store.

Designed with safety and usability as a priority, the MLT4 is a plug-and-play mobile light tower that can be deployed quickly on construction sites, parking areas, events and other temporary locations. The robust galvanized steel telescopic mast is easy to operate and features an automatic safety stop for reliable use in demanding environments.

Number of floodlights	4
Type	300 Watt, 51.000 Lumen
Certification	TÜV Rheinland, CE
Height	8,5 meters
Dimensions incl. lamps (LxWxH)	111 x 111x 230 cm
Stabilizers	Optional
Dimensions incl. stabilizers (LxWxH)	235 x 235 x 230 cm
Ballast blocks	2 x 265 kg
Weight mast	295 kg
Weight including ballast	825 kg
Top	Cross part
Number of lamps possible	4 pieces
Maximum load capacity (crosspiece)	60 kg
Wind Load Advisory	Max. windforce 10 (89-102 km/h)
Hand winch	CE-approved hand winch (1800 lbs)
Lockable	Yes
Stackable	No
Forklift slots	Yes, 4 sides
Lifting eyes	Yes
Own branding possibility	Yes
Electrically prepared	Yes
Cable protector	Yes
On/Off Switch	Yes
Powercable	Yes
Telescopic side tube with coiled cable	Yes
Cable box	Yes
Spirit level	Yes
Telescopic mast with automatic safety stop	Yes

The MLT4 is equipped with 4 LED luminaires
This mobile light tower uses specially designed 200-watt LED floodlights mounted on a cross-shaped mast head, ensuring optimal light distribution.

The compact base and heavy ballast blocks provide excellent stability, while integrated lifting eyes and forklift openings make transportation straightforward. A lockable cabinet allows for the safe accommodation of a battery or generator, and the housing can be branded on two sides to match customer or project requirements.

Key features:

- ✓ Plug & play design for fast deployment
- ✓ Available as MLT4 with 4 luminaires
- ✓ Galvanized steel mast with automatic safety stop
- ✓ Ballast blocks for optimal stability
- ✓ Optional stabilizers
- ✓ Lockable cabinet for battery or generator integration
- ✓ TÜV and CE certified
- ✓ Easy to transport using forklift slots and lifting eyes
- ✓ Suitable for year-round use in various terrains

MLT4 Mobile Light Tower

Applications:

- ✓ Construction and infrastructure projects
- ✓ Temporary site and area lighting
- ✓ Parking areas and logistics area
- ✓ Events and temporary installations
